SUBJECT INDEX

COMPUTERS AND THE LAW

Criminal Invasion of Privacy: A Survey of Computer Crimes, Jordan M. Blanke (Summer 2001) 41:443

Childproofing on the World Wide Web: A Survey of Adult Webservers, Daniel Orr and Josephine Ferrigno-Stack (Summer 2001) 41:465

Problems with the Use of Computers for Selecting Jury Panels, Letter, George Marsaglia (Spring 2001) 41: 425

EVIDENCE, FORENSIC SCIENCE

Frye, Frye, *Again: The Past, Present, and Future of the General Acceptance Test*, David E. Bernstein (Spring 2001) 41:385

Toward an Understanding of the Effect of Changes in Standards of Proof on Errors of Justice, Brian Forst (Summer 2001) 41:489

JUDICIAL AND JURY BEHAVIOR

Ideological Voting on the Supreme Court: Comparing the Conference Vote and the Final Vote with the Segal-Cover Scores, Saul Brenner and Theodore S. Arrington (Summer 2001) 41:507

LAW, MEDICINE, AND BIOLOGY

The Divergence of Neuroscience and Law, Jacob R. Waldbauer and Michael S. Gazzaniga (Spring 2001) 41:357

The Evolution of Predictive Genetic Testing: Deciphering Gene-Environment Interaction, Richard R. Sharp (Winter 2001) 41:145

FDA and the Regulation of Genetic Tests, Neil A. Holtzman (Fall 2000) 41:53

Genetic Susceptibility and Biomarkers in Toxic Injury Litigation, Gary E. Marchant (Fall 2000) 41:67

Genetic Testing: A Role for FDA?, Richard A. Merrill (Fall 2000) 41:63

Genetic Testing for Susceptibility to Disease from Exposure to Toxic Chemicals: Implications for Public and Worker Health Policies, Michael Baram (Winter 2001) 41:165

Genetic Testing in Toxic Injury Litigation: The Path to Scientific Certainty or Blind Alley?, Susan R. Poulter (Winter 2001) 41:211

Genetic Testing, Liability, and Regulatory Policy: The Canadian Situation, Timothy Caulfield (Fall 2000) 41:7

The Importance of Test Validity and Predictive Values to Screening Programs, Ralph R. Cook (Fall 2000) 41:111

Mapping Cortical Areas Associated with Legal Reasoning and Moral Intuition, Oliver R. Goodenough (Summer 2001) 41:429

More to Do About Genetic Testing: A Foreword, Daniel S. Strouse (Fall 2000) 41:1

Protecting Farmer Innovation: The Convention on Biological Diversity and the Question of Origin, Cary Fowler (Summer 2001) 41:477

Product Liability for Predictive Genetic Tests, Pilar N. Ossorio (Winter 2001) 41:239

Separating Predictive Genetic Testing from Snake Oil: Regulation, Liabilities, Lost Opportunities, Michael J. Malinowski (Fall 2000) 41:23

Uses of Biomarkers for Genetic Susceptibility and Exposure in the Regulatory Context, Dale Hattis and Sue Swedis (Winter 2001) 41:177

PROBABILITY, STATISTICS, MATHEMATICS, AND LOGIC

Relative Risk Greater than Two in Proof of Causation in Toxic Tort Litigation, Russellyn S. Carruth and Bernard D. Goldstein (Winter 2001) 41:195

SOCIAL SCIENCE AND THE LAW

A Multi-Disciplinary Approach to Legal Scholarship: Economics, Behavioral Economics, and Evolutionary Psychology, Russell Korobkin (Spring 2001) 41:319

The Evolution of Irrationality, Owen D. Jones (Spring 2001) 41:287

Is Evolutionary Analysis of Law Science or Storytelling?, Comment, Jeffrey J. Rachlinski (Spring 2001) 41:365

Can Evolutionary Science Contribute to Discussions of Law?, Comment, Jeffrey Evans Stake (Spring 2001) 41:379

How Humans Make Political Decisions, Paul H. Rubin (Spring 2001) 41:337

Science and Human Behavior: A Reply, Owen D. Jones (Spring 2001) 41:371

TITLE INDEX

Can Evolutionary Science Contribute to Discussions of Law?, Comment, Jeffrey Evans Stake (Spring 2001) 41:379

Childproofing on the World Wide Web: A Survey of Adult Webservers, Daniel Orr and Josephine Ferrigno-Stack (Summer 2001) 41:465

Criminal Invasion of Privacy: A Survey of Computer Crimes, Jordan M. Blanke (Summer 2001) 41:443

The Evolution of Irrationality, Owen D. Jones (Spring 2001) 41:287

The Evolution of Predictive Genetic Testing: Deciphering Gene-Environment Interaction, Richard R. Sharp (Winter 2001) 41:145

FDA and the Regulation of Genetic Tests, Neil A. Holtzman (Fall 2000) 41:53

Frye, Frye, *Again: The Past, Present, and Future of the General Acceptance Test*, David E. Bernstein (Spring 2001) 41:385

Genetic Susceptibility and Biomarkers in Toxic Injury Litigation, Gary E. Marchant (Fall 2000) 41:67

Genetic Testing: A Role for FDA?, Richard A. Merrill (Fall 2000) 41:63

Genetic Testing for Susceptibility to Disease from Exposure to Toxic Chemicals: Implications for Public and Worker Health Policies, Michael Baram (Winter 2001) 41:165

Genetic Testing in Toxic Injury Litigation: The Path to Scientific Certainty or Blind Alley?, Susan R. Poulter (Winter 2001) 41:211

Genetic Testing, Liability, and Regulatory Policy: The Canadian Situation, Timothy Caulfield (Fall 2000) 41:7

How Humans Make Political Decisions, Paul H. Rubin (Spring 2001) 41:337

Ideological Voting on the Supreme Court: Comparing the Conference Vote and the Final Vote with the Segal-Cover Scores, Saul Brenner and Theodore S. Arrington (Summer 2001) 41:507

The Importance of Test Validity and Predictive Values to Screening Programs, Ralph R. Cook (Fall 2000) 41:111

Is Evolutionary Analysis of Law Science or Storytelling?, Comment, Jeffrey J. Rachlinski (Spring 2001) 41:365

Mapping Cortical Areas Associated with Legal Reasoning and Moral Intuition, Oliver R. Goodenough (Summer 2001) 41:429

More to Do About Genetic Testing: A Foreword, Daniel S. Strouse (Fall 2000) 41:1

A Multi-Disciplinary Approach to Legal Scholarship: Economics, Behavioral Economics, and Evolutionary Psychology, Russell Korobkin (Spring 2001) 41:319

Problems with the Use of Computers for Selecting Jury Panels, Letter, George Marsaglia (Spring 2001) 41: 425

Product Liability for Predictive Genetic Tests, Pilar N. Ossorio (Winter 2001) 41:239

Protecting Farmer Innovation: The Convention on Biological Diversity and the Question of Origin, Cary Fowler (Summer 2001) 41:477

Relative Risk Greater than Two in Proof of Causation in Toxic Tort Litigation, Russellyn S. Carruth and Bernard D. Goldstein (Winter 2001) 41:195

Science and Human Behavior: A Reply, Owen D. Jones (Spring 2001) 41:371

Separating Predictive Genetic Testing from Snake Oil: Regulation, Liabilities, Lost Opportunities, Michael J. Malinowski (Fall 2000) 41:23

Symposium, *ASU-Gruter Conference on Law, Behavioral Biology, and Economics* (Spring 2001) 41:287

Symposium, *Legal Liabilities at the Frontier of Genetic Testing* (pts. I & II) (Fall 2000), (Winter 2001) ..... 41:1 & 142

Toward an Understanding of the Effect of Changes in Standards of Proof on Errors of Justice, Brian Forst (Summer 2001) 41:489

Uses of Biomarkers for Genetic Susceptibility and Exposure in the Regulatory Context, Dale Hattis and Sue Swedis (Winter 2001) 41:177
